

AIDI KHALID

I'm passionate about programming and video games, which led me to earn a Software and Animation Degree. I've had the amazing opportunity to work with Metronomik, creators of Malaysia's top console game, from day one. This experience in the competitive game industry honed my teamwork skills and goal-driven approach. Now, I'm eager to return to my original love: software development.

Professional Experience

Cinematic Artist for Baldur's Gate 3

Larian Studios | 2021/6 – 2023/2

- Create cinematics in collaboration with other teams for the massive hit game.
- Also a part of the cine-feasibility team, which is to help assess if what the writer wants to be seen visually is viable for the cinematics team to execute.

Cinematic Supervisor / Lead Writer for No Straight Roads

Metronomik | 2017/12 – 2020/9

- I was one of the first few team members of the company during its start-up, from day 1.
- Create cinematics and help coordinate with team members to create assets for the cutscenes.
- Co-directed the voice talents.
- Helped write the story including scenarios based on the directors' vision.

Asset Artist for Star Wars Freemaker Adventures

Anima | 2015/10 – 2017/5

- Model and texture 3D models including characters, backgrounds, and props.

Programming Projects

Cafe and Laptop (website)

- A website where registered users can find, share, and rate work-friendly cafes. Made with Python, Flask, SQLAlchemy, PostgreSQL, HTML, CSS, and Bootstrap.

Calculator (web app)

- An online calculator. Aside from using the mouse, the keypad may also be used for input. Made with JavaScript, HTML, and CSS.

Tic-Tac-Toe (app)

- A text-based Tic-Tac-Toe game with a simple enemy AI for the player to fight against. The AI has three difficulties to choose from: Easy, Medium, and Impossible. You can also battle against another player (local). Made with Python.

Education

Multimedia University, Bachelor of Multimedia (HONS) Software and Animation

Technical Skills

Python, JavaScript, HTML, CSS, MySQL, PostgreSQL, and SQLite.

Other Interests

Learning Japanese.
