AIDI KHALID

I'm passionate about programming and video games, which led me to earn a Software and Animation degree. With over 11 years of experience in the game and animation industries, I transitioned into tech and have since gained more than a year of hands-on experience as a web developer. My combined creative and technical background strengthens my problem-solving, collaboration, and attention to detail. I'm excited to continue growing as a developer and deliver impactful results.
